SNATEK
Salvant Technologies, Inc.
"One Step ahead of your IT Wants and Needs"

Services | **Cloud** | **Sales** | **Public**

Overview

Salvant Technologies, Inc. is a South Florida based business IT consulting and value-added reseller (VAR) providing innovative network infrastructure and computing solutions to small, mid-sized and enterprise level businesses.

Our job is to not only stay abreast of the continuous changes in technology, but to advise our clients on how to leverage these technological developments creatively and effectively to increase sales, reduce costs, minimize disruptions to their business and improve internal and external business operations performance.

Our mission is to achieve complete customer satisfaction by delivering high quality, customized, cost-effective information technology solutions.

Our commitment is to help you design, deploy and support network computing solutions that can translate into a real competitive advantage.

Why SNATEK?

Our expertise is comprised of some of the industry's most knowledgeable, reliable and dedicated IT Engineers.

We have the ability to provide you with all your IT solutions in a One Stop Shop with services like:

- Project Consultation
- Professional Services
- Managed Services (MSP)
- Cloud Services (CSP)
- IT & Security Assessment
- Data Protection & Business Continuity Solutions
- HIPAA, HITECH, PCI, SOX & Compliance
- Technical & Network Support Maintenance
- Web Design & Development
- And more...

SNA.Services

SNATEK offers various levels of services as a strategic method for improving operations and reducing overhead expenses. We create a unique customer centric approach to create pro-active IT solutions for your business.

Our highly skilled team offers Managed Services as well as consulting, repairs, testing, web development, remote desktop assistance and professional services to all our clients.

SNA.Cloud

Our Cloud Services provide a productive internet-based resource that allows for more manageability and less maintenance.

Services include major "as a Service" models such as:

- Infrastructure as a Service (IaaS)
- Office as a Service (OaaS)
- Disaster Recovery as a Services (DRaaS)
- Security as a Service (SECaaS)
    - And more...

SNA.Sales

SNATEK pulls its resources to ensure that you stay up to date with the ever evolving technological advances of our industry.

SNATEK is a partner of major vendors such as: Dell, HP, Microsoft, Cisco, Oracle

We seek quality partnerships to fulfill the procurement of key infrastructure components such as:

Servers, Computers, Mobile Services, and related peripherals.

SNA.Public

Our IT innovations help keep the public sector in compliance with their specific government requirements as technology advances. Our team uses the latest technology available to provide invaluable service and support to all public sectors, including local and state, K-12 schools, colleges and universities.

Our Public Sector Services include:

- Hardware procurement
- Contract bidding
